

TVM-2733

Monitor Led 27" Truvision, VGA, HDMI, con Altoparlanti audio, 4K. 3840x2160

Overview

The LED TVM range of monitors is the latest advancement in TruVision monitors. Providing superior image quality through HDMI or VGA connections, these monitors are a great fit for today's demanding video surveillance market.

Whether displaying analog or IP resolutions, these monitors are designed to provide top image quality paired with industrial reliability.

These monitors are designed to perform 24/7 and are design with security applications in mind.

Capabilities

The TVM-2733 is a 27" class monitor, offering HDMI or DisplayPort connections for up to 4K resolution. The monitor has two built in speakers and is provided with VESA wall mount holes, making them easy to combine with a variety of TruVision mounting accessories. The on screen display allows for full control of images settings such as brightness, contrast and colour temperature.
