

# DH-XVR5104HS-I3(1TB)

4CH Penta-brid 5MP Value/1080P Compact 1U 1SSD 1TB WizSense Digital Video Recorder

WizSense

Launched by Dahua Technology, WizSense is a series of AI products and solutions that adopt independent AI chip and deep learning algorithm. It focuses on human and vehicle with high accuracy, enabling users to fast act on defined targets. Based on Dahua's advanced technologies, WizSense provides intelligent, simple and inclusive products and solutions.

## Series Overview

Dahua Technology, a world-leading video-centric smart IoT solution and service provider, debuted its new S-XVR series, XVR5000-I3 Series featuring max.full-channel SMD Plus to benefit customers from AI upgrade (The number of channels differs depending on the model. Please refer to the specifications below for information on the number of channels.). This series has been developed to reduce false-alarm rates and the cost of human surveillance, thus bringing great value to customers in search of products with accurate human/vehicle alarm to raise the security level of various indoor and outdoor facilities.

## Functions

### Internal SSD

Unlike the traditional XVR, S-XVR comes with the SSD preinstalled in the device. It is more energy efficient, and has stronger vibration resistance and better heat dissipation. S-XVR also saves you time on selecting the type of hard disk and installing it, greatly increasing your efficiency.

### Real 5MP Mode

This mode can enhance XVR preview and playback resolution to Real 5MP. Enable more clarity image experience.

### Face Recognition

Dahua Face Recognition technology extracts the features of captured faces and compares them with that in face database.

\*Face Recognition takes effect when Face is selected in AI Mode.

### Perimeter Protection

Automatically filters out false alarms caused by animals, rustling leaves, bright lights, etc. Enables system to act secondary recognition for the targets. Improves alarm accuracy.

\*Perimeter Protection takes effect when IVS&SMD is selected in AI Mode.

**\* The information below only applies to hardware version 3.0 of the product.**

- Comes with an internal 1TB SSD, and can record videos for about 22 days.
- 4-channel SMD Plus for analog channels which allows the device to trigger accurate alarms for humans and vehicles.
- 4-channel perimeter protection for analog channels which supports tripwire and intrusion detection powered by AI.
- 1-channel face recognition for analog channels which supports face comparison.
- 4-channel AI Coding saves on storage and bandwidth while maintaining the details of targets in videos.
- Supports HDCVI, AHD, TVI, CVBS and IP video input.
- Supports up to 6-channel IP camera input and each channel can be up to 6 MP. The incoming bandwidth reaches 32 Mbps.
- Smart H.265+ and Smart H.265 dual-stream video compression.
- IoT and POS capabilities.

### SMD Plus

With intelligent algorithm, Dahua Smart Motion Detection technology can categorize the targets that trigger motion detection and filter the motion detection alarm triggered by non-concerned targets to realize effective and accurate alarm.

\*SMD Plus takes effect when SMD or IVS&SMD is selected in AI Mode.

### Smart Dual Illuminators

With Smart Dual Illuminators technology, you can select Smart Illumination Mode for the system to automatically switch between IR mode and white light mode. It allows white light to be turned on when a target is detected by the SMD Plus/Perimeter Protection function of AI-enabled XVR. This significantly reduces light pollution at night. Together with other modes, including IR Mode and White Light Mode, the smart dual illumination technology can meet the requirements of a wide variety of scenes.

### One-click Arming/Disarming

With just one click, you can enable or disable alarm linkages to show messages, send emails, output audio alarms and more, through the mobile app and platform.

### Customizable Alarm Audio

Designed for your convenience, the TIOC alarm can be customized to meet your needs. It is flexible, allowing you to directly upload your customized audio through the mobile app and XVR.

## AI Coding

Compared with H.265/H.264, AI coding can reduce more than 50% bit rate and storage requirements without loss of decoding compatibility, providing clear human and vehicle details.

### Technical Specification

#### System

|                     |                            |
|---------------------|----------------------------|
| Main Processor      | Industrial-grade processor |
| Operating System    | Embedded Linux             |
| Operating Interface | Web; Local GUI             |

#### Perimeter Protection

|                                                           |                                                                                                                       |
|-----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Perimeter Performance AI by Recorder (Number of Channels) | Advanced Model: 2 channels, 10 IVS rules for each channel<br>General Model: 4 channels, 10 IVS rules for each channel |
|-----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|

#### Face Detection

|                                                                   |                                                |
|-------------------------------------------------------------------|------------------------------------------------|
| Face Attributes                                                   | 6 attributes                                   |
| Face Detection Performance of AI by Recorder (Number of Channels) | 1 channel (up to 8 face images/s each channel) |

#### Face Recognition

|                                                                     |                                             |
|---------------------------------------------------------------------|---------------------------------------------|
| Face Database Capacity                                              | Up to 10 face databases with 10,000 images. |
| Face Recognition Performance of AI by Recorder (Number of Channels) | 1 channel                                   |

#### SMD Plus

|                      |                                                                                                                                          |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| SMD Plus by Recorder | 4 channels: Secondary filtering for human and motor vehicle , reducing false alarms caused by leaves, rain and lighting condition change |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------|

#### Audio and Video

|                     |                                                                                                                                                                                                                                                                                                     |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Analog Camera Input | 4 BNC ports, supports HDCVI/AHD/TVI/CVBS auto-detect                                                                                                                                                                                                                                                |
| Camera Input        | 1. CVI: 5MP@20fps, 5MP@25fps, 5MP@10/12.5fps, 4MP@25/30fps, 1080p@25/30fps, 720p@50/60fps, 720p@25/30fps. 2. TVI: 5MP@20fps, 4MP@25/30fps, 1080p@25/30fps, 720p@25/30fps. 3. AHD: 5MP@20fps, 4MP@25/30fps, 1080p@25/30fps, 720p@25/30fps.                                                           |
| IP Camera Input     | Up to 6 channels of IPC access 2 IP channels by default + 4 channels (analog channels are converted to IP channels) incoming bandwidth: 32 Mbps, recording bandwidth: 32 Mbps and outgoing bandwidth: 32 Mbps<br>*After IP extension is enabled, the AI Function (IVS, SMD, FACE) will be disabled. |
| Encoding Capacity   | Main stream: 5MP Mode: All channel 5MP@(1-6fps)<br>5M-N Mode: All channel 5M-N@(1-12fps);4M-N,1080p@(1-15fps); 1080N, 720p, 960H, D1,CIF@(1-25/30fps) Sub stream: D1, CIF@(1-15fps)                                                                                                                 |
| Dual-stream         | Yes                                                                                                                                                                                                                                                                                                 |

#### Compression Standard

|                   |                                                     |
|-------------------|-----------------------------------------------------|
| Video Compression | AI Coding; Smart H.265+; H.265; Smart H.264+; H.264 |
| Audio Compression | G.711a; G.711u; PCM                                 |

#### Network

|                     |                                                                                                                                                                                    |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Network Protocol    | HTTP; HTTPS; TCP/IP; IPv4; IPv6; RTSP; UDP; NTP; DHCP; DNS; SMTP; UPnP; IP Filter; FTP; DDNS; Alarm Server; P2P; Auto Registration; IP Search (Supports IP camera, DVR, NVS, etc.) |
| Mobile Phone Access | IOS; Android                                                                                                                                                                       |
| Interoperability    | ONVIF 22.12(Profile T; Profile S; Profile G); CGI; SDK                                                                                                                             |
| Browser             | Chrome; Firefox; IE                                                                                                                                                                |
| Network Mode        | Single-address mode                                                                                                                                                                |

#### Recording Playback

|                    |                                                                                                              |
|--------------------|--------------------------------------------------------------------------------------------------------------|
| Record Mode        | General; motion detection; intelligent; alarm; POS                                                           |
| Recording Playback | 1/4                                                                                                          |
| Backup Method      | USB device and network                                                                                       |
| Playback Mode      | Instant playback; general playback; event playback; tag playback; smart playback (face and motion detection) |

#### Alarm

|                   |                                                                                                                                                        |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| General Alarm     | Motion detection; alarm box; camera external alarm; network alarm; PIR alarm                                                                           |
| Anomaly Alarm     | Error (no disk, disk error, low space, low quota space; network disconnection; IP conflict; MAC conflict) ;video loss; video tampering; camera offline |
| Intelligent Alarm | Face detection; face recognition; perimeter protection                                                                                                 |
| Alarm Linkage     | Record; snapshot (panoramic); IPC external alarm output; audio; buzzer; log, preset; email                                                             |

#### Ports

|               |                                                                                           |
|---------------|-------------------------------------------------------------------------------------------|
| Audio Input   | 1-channel RCA<br>4-channel BNC (Coaxial Audio)                                            |
| Audio Output  | 1-channel RCA                                                                             |
| Two-way Talk  | Yes (share the same audio input with the first channel)                                   |
| HDD Interface | 1 SSD:1TB(replaceable with 256 GB or 512 GB)<br>Stores for 22 days under default settings |
| RS-485        | 1                                                                                         |
| USB           | 2 (1 front USB 2.0 port, 1 rear USB 2.0 port)                                             |
| HDMI          | 1                                                                                         |
| VGA           | 1                                                                                         |
| Network Port  | 1 (10/100 Mbps Ethernet port, RJ-45)                                                      |

#### General

|                   |                 |
|-------------------|-----------------|
| Power Supply      | 12 VDC, 1.5A    |
| Power Consumption | <5 W (with SSD) |

|                       |                                                                                                                                                                                   |
